

GANESH VANKUDOTH

Electronics and Communication Engineering

+91 9391666301 gvankadoth@gmail.com <https://www.linkedin.com/in/ganeshvankudoth>

SUMMARY

Recent Electronics and Communication Engineering graduate seeking a Web Developer role. Offers hands-on experience in software development, building and optimizing applications with Python, JavaScript, React, Django, HTML/CSS, and MySQL. Combines a strong engineering foundation with proven skills in problem-solving and application design.

EDUCATION

Malla Reddy Institute of Technology and Science	2021-2025
B.Tech , Electronics and Communication Engineering	CGPA: 7.15/10
Resonance Junior College	2019-2021
12th , Science	Percentage: 97.4%
Little Buds High School	2018-2019
10th , General	CGPA: 9.3/10

PROJECTS

Online Medical Application

- Developed an online medical application leveraging Machine Learning (ML) and Deep Learning (DL) models.
- Implemented features for accurate disease prediction, diagnosis, and personalized healthcare recommendations.
- Designed the system to enhance the overall efficiency and accessibility of medical services

Minimizing Financial Cost of DDoS Attack Defence in Cloud

- Designed and implemented a cost-effective security solution for cloud infrastructure protection
- Applied cloud computing principles and security algorithms to mitigate DDoS attacks
- Developed optimization strategies to reduce financial impact while maintaining robust security

CERTIFICATES

Oracle Cloud Infrastructure AI Foundations

SKILLS

Programming Languages: Python, JavaScript

Web Technologies: HTML, CSS

Databases: MYSQL

Frameworks & Libraries: NumPy, Pandas, Django, React
